All trademarks on this page are the property of INVISTA, an independently-managed, wholly-owned subsidiary of Koch Industries, Inc. One of the largest privately-held companies in the world, Koch Industries operates a diverse group of businesses in nearly 60 countries.

INVISTA is one of the world's largest integrated producers of polymers and fibers, primarily for nylon, spandex and polyester applications. Operating in more than 20 countries across North America, Latin America, Europe, and the Asia-Pacific region, INVISTA delivers exceptional value for its customers through technology innovations, market insights and a powerful portfolio of global trademarks.

Apparel

INVISTA Apparel is a leading innovator, producer, and marketer of premium fibers and fabrics in global apparel markets including intimate apparel, swimwear, legwear, activewear and ready-to-wear such as denim, shirting and sweaters. INVISTA Apparel works across the entire value chain to create value for fabric mills, garment makers and apparel and retail brands through a worldwide network of sales and marketing offices.

As the world's largest nylon and spandex producer, INVISTA Apparel utilizes an impressive line-up of global consumer brands such as LYCRA® fiber, COOLMAX® fabric, TACTEL® fiber, SUPPLEX® fabric, and an ever-expanding portfolio of patents.

Intermediates

INVISTA Intermediates is a global supplier of nylon intermediates and polymers for a wide range of uses and specialty materials. INVISTA markets a broad portfolio of intermediate chemicals, polymers and specialty materials under trademarks such as TERATHANE® polyether glycol, DBE® dibasic esters and ADI-PURE® adipic acid.

These products have applications in apparel, carpeting, polyurethanes, engineered plastics, coatings, adhesives, building materials, pharmaceutical intermediates, cleaning solutions, fragrances and printing inks.

Performance Surfaces and Materials

STAINMASTER® carpet is one of the leading brands in residential carpet. INVISTA's exceptional stain-resistant fiber technology makes it possible for carpet mills to introduce hundreds of STAINMASTER® carpets in some of the most fashion forward styles on the market today.

ANTRON® carpet fiber is a certified, Environmentally Preferred Product that provides commercial interior specifiers with advanced soil and stain resistance, texture retention and beautiful aesthetics through the use of nylon 6,6 polymer and exclusive fiber technology.

INVISTA's CORDURA® brand fabrics have a well-established reputation for adding stylish durability and lightweight strength to quality brands all over the world. Innovations include INVISTA™ T420A fiber, CORDURA® Colorlock fabrics and CORDURA® Baselayer fabric.

Polymer and Resins

With 50 years of manufacturing experience across the polyester chain, INVISTA is a reliable, responsive and value-focused supplier of polyester intermediates and polymer. INVISTA Polymer and Resins offers a variety of PET polymer recipes designed to meet the process and end product requirements of fiber producers including industrial filament, spunbond nonwoven, staple fiber and bulk continuous filament yarn applications.

Products include POLYCLEAR® resin, PERFORMA™ film and sheet, POLYSHIELD® resin, POLARGUARD® continuous filament polyester fiber, INVISTA Type 295™ polyester staple fiber, and customized polymers.
