Aria

design: Babini Office

Italian design without limits

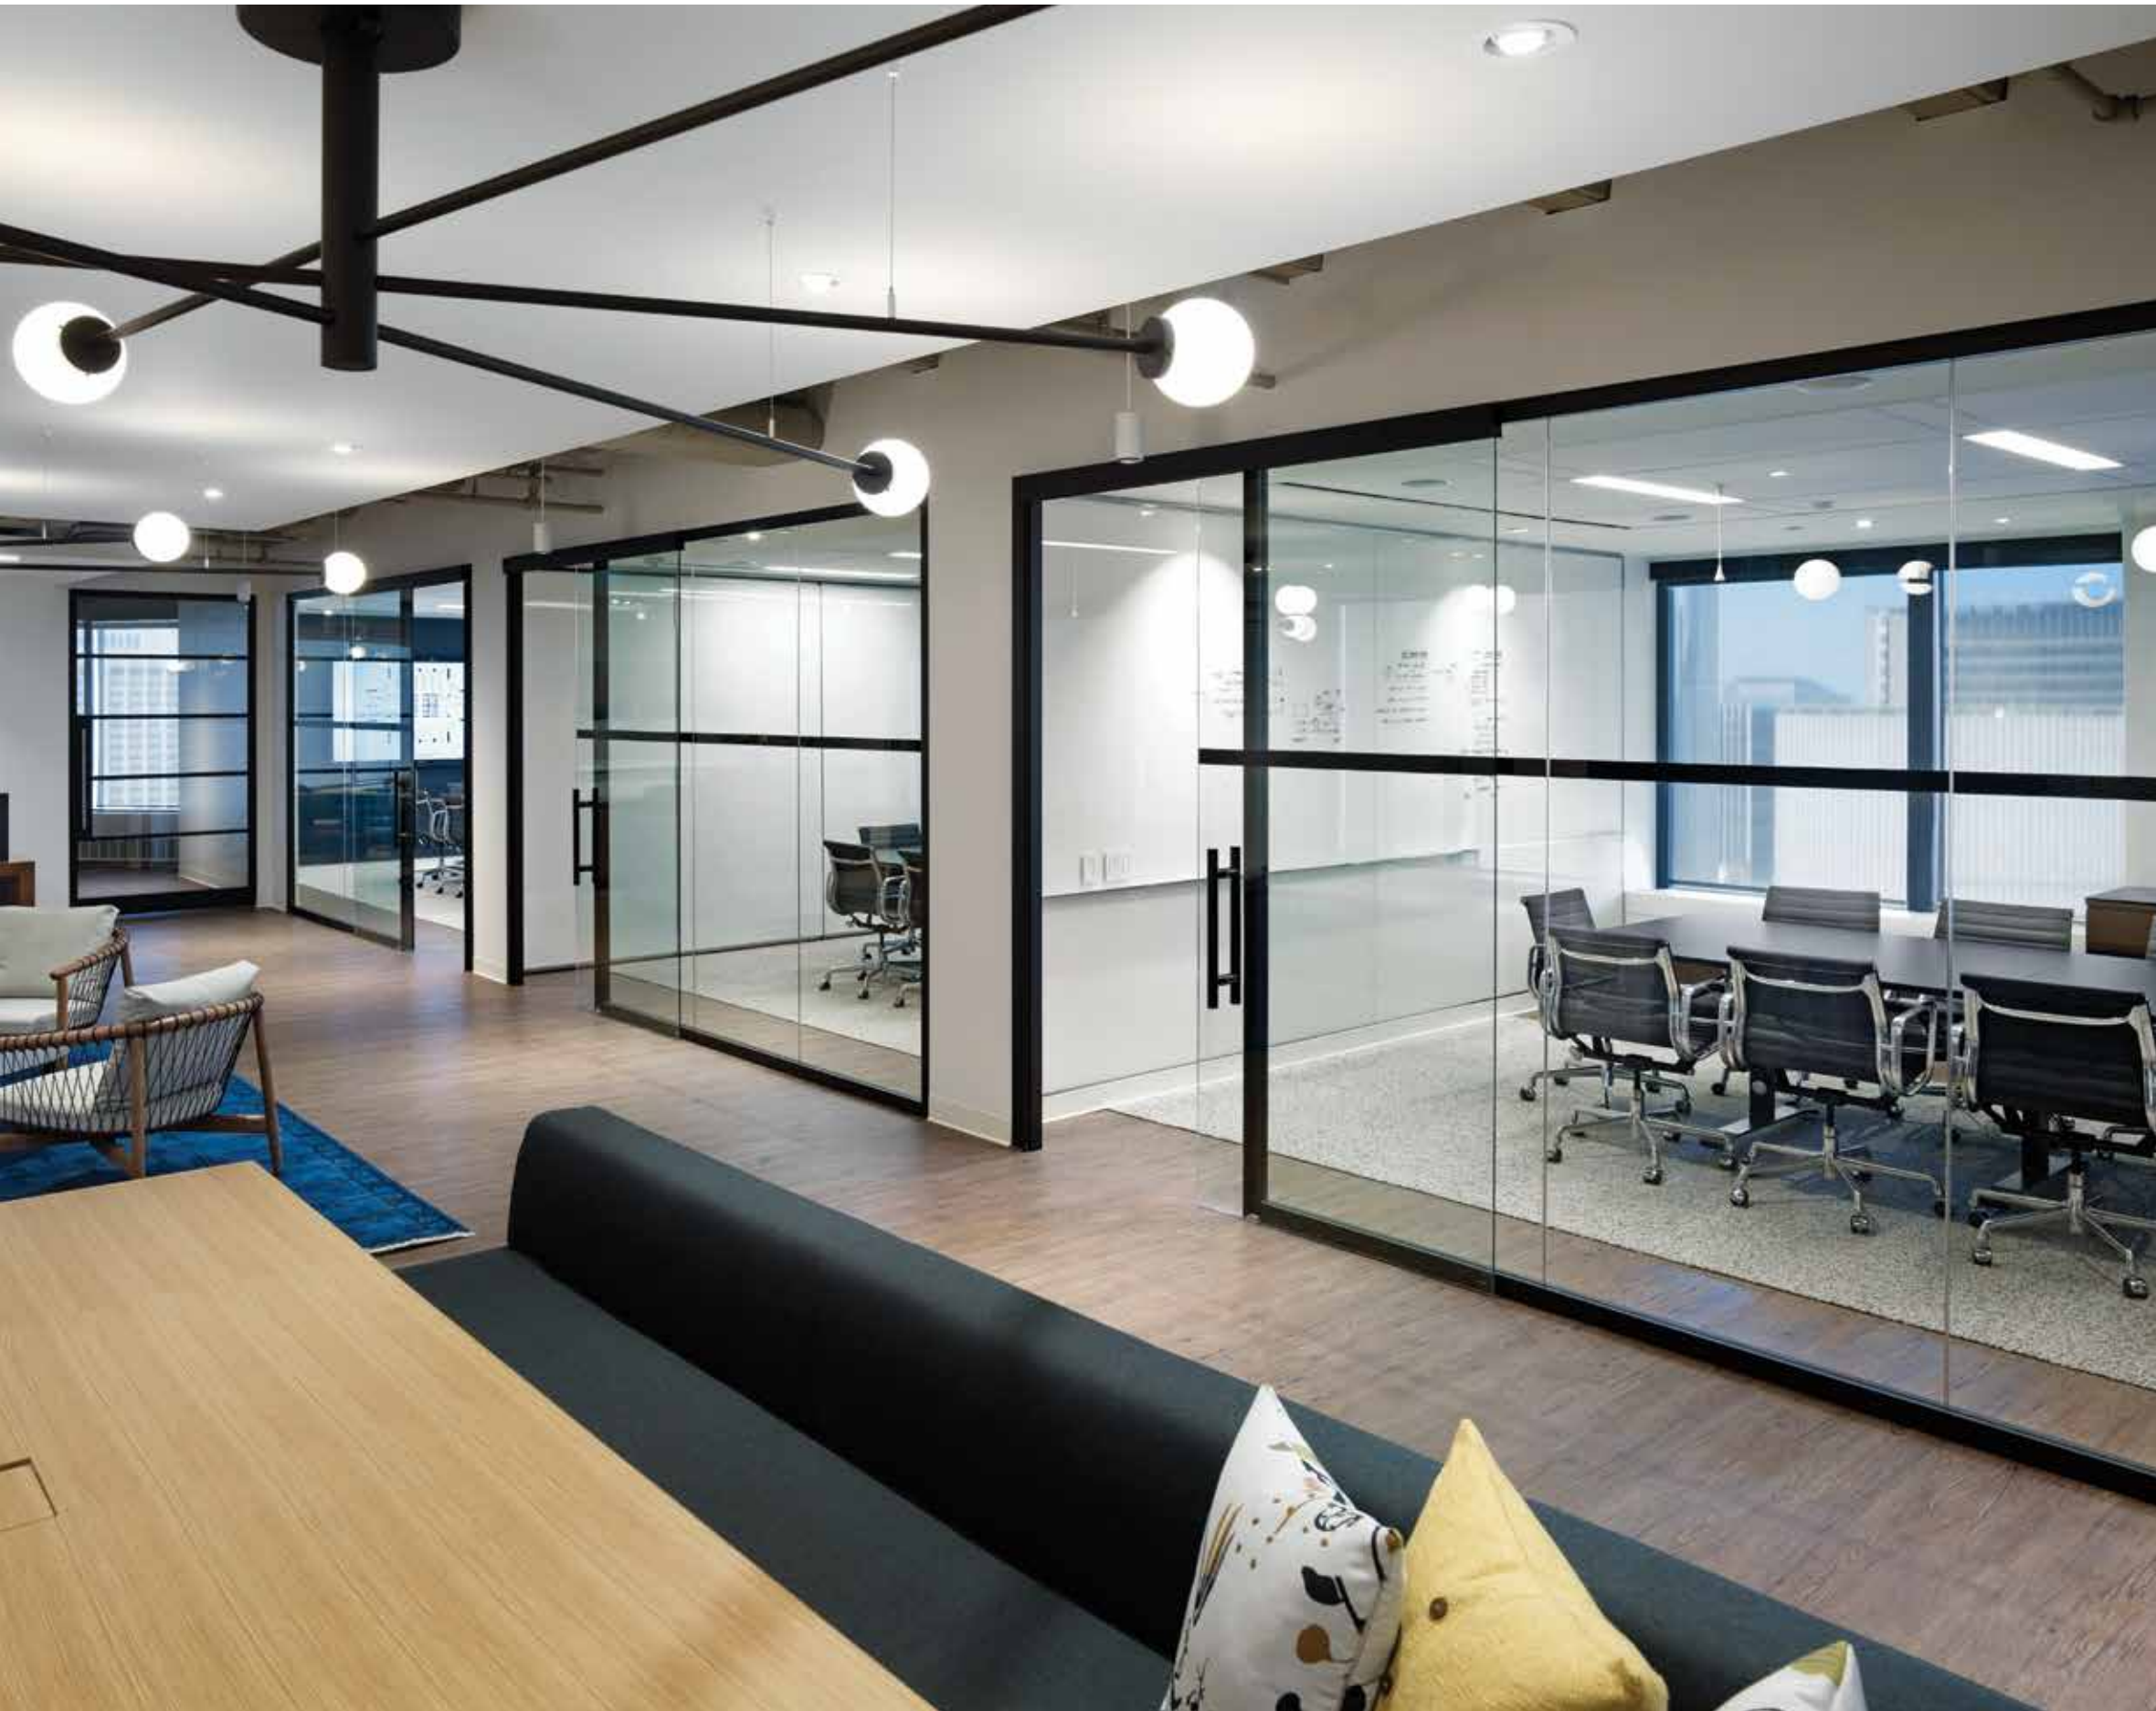

Elegant and light in scale, Aria is a seamless glass wall that distinctively defines your space.

From collaborative areas, private offices, meeting rooms, reception areas, training spaces and beyond, Aria brings your vision to life.

delight users

Aria offers a broad palette of options for creating inspiring spaces. Choose from a variety of glass and solid panel finishes.

Simply beautiful

The refined design of Aria lets you define spaces with the crisp lines of low-profile aluminum frames.

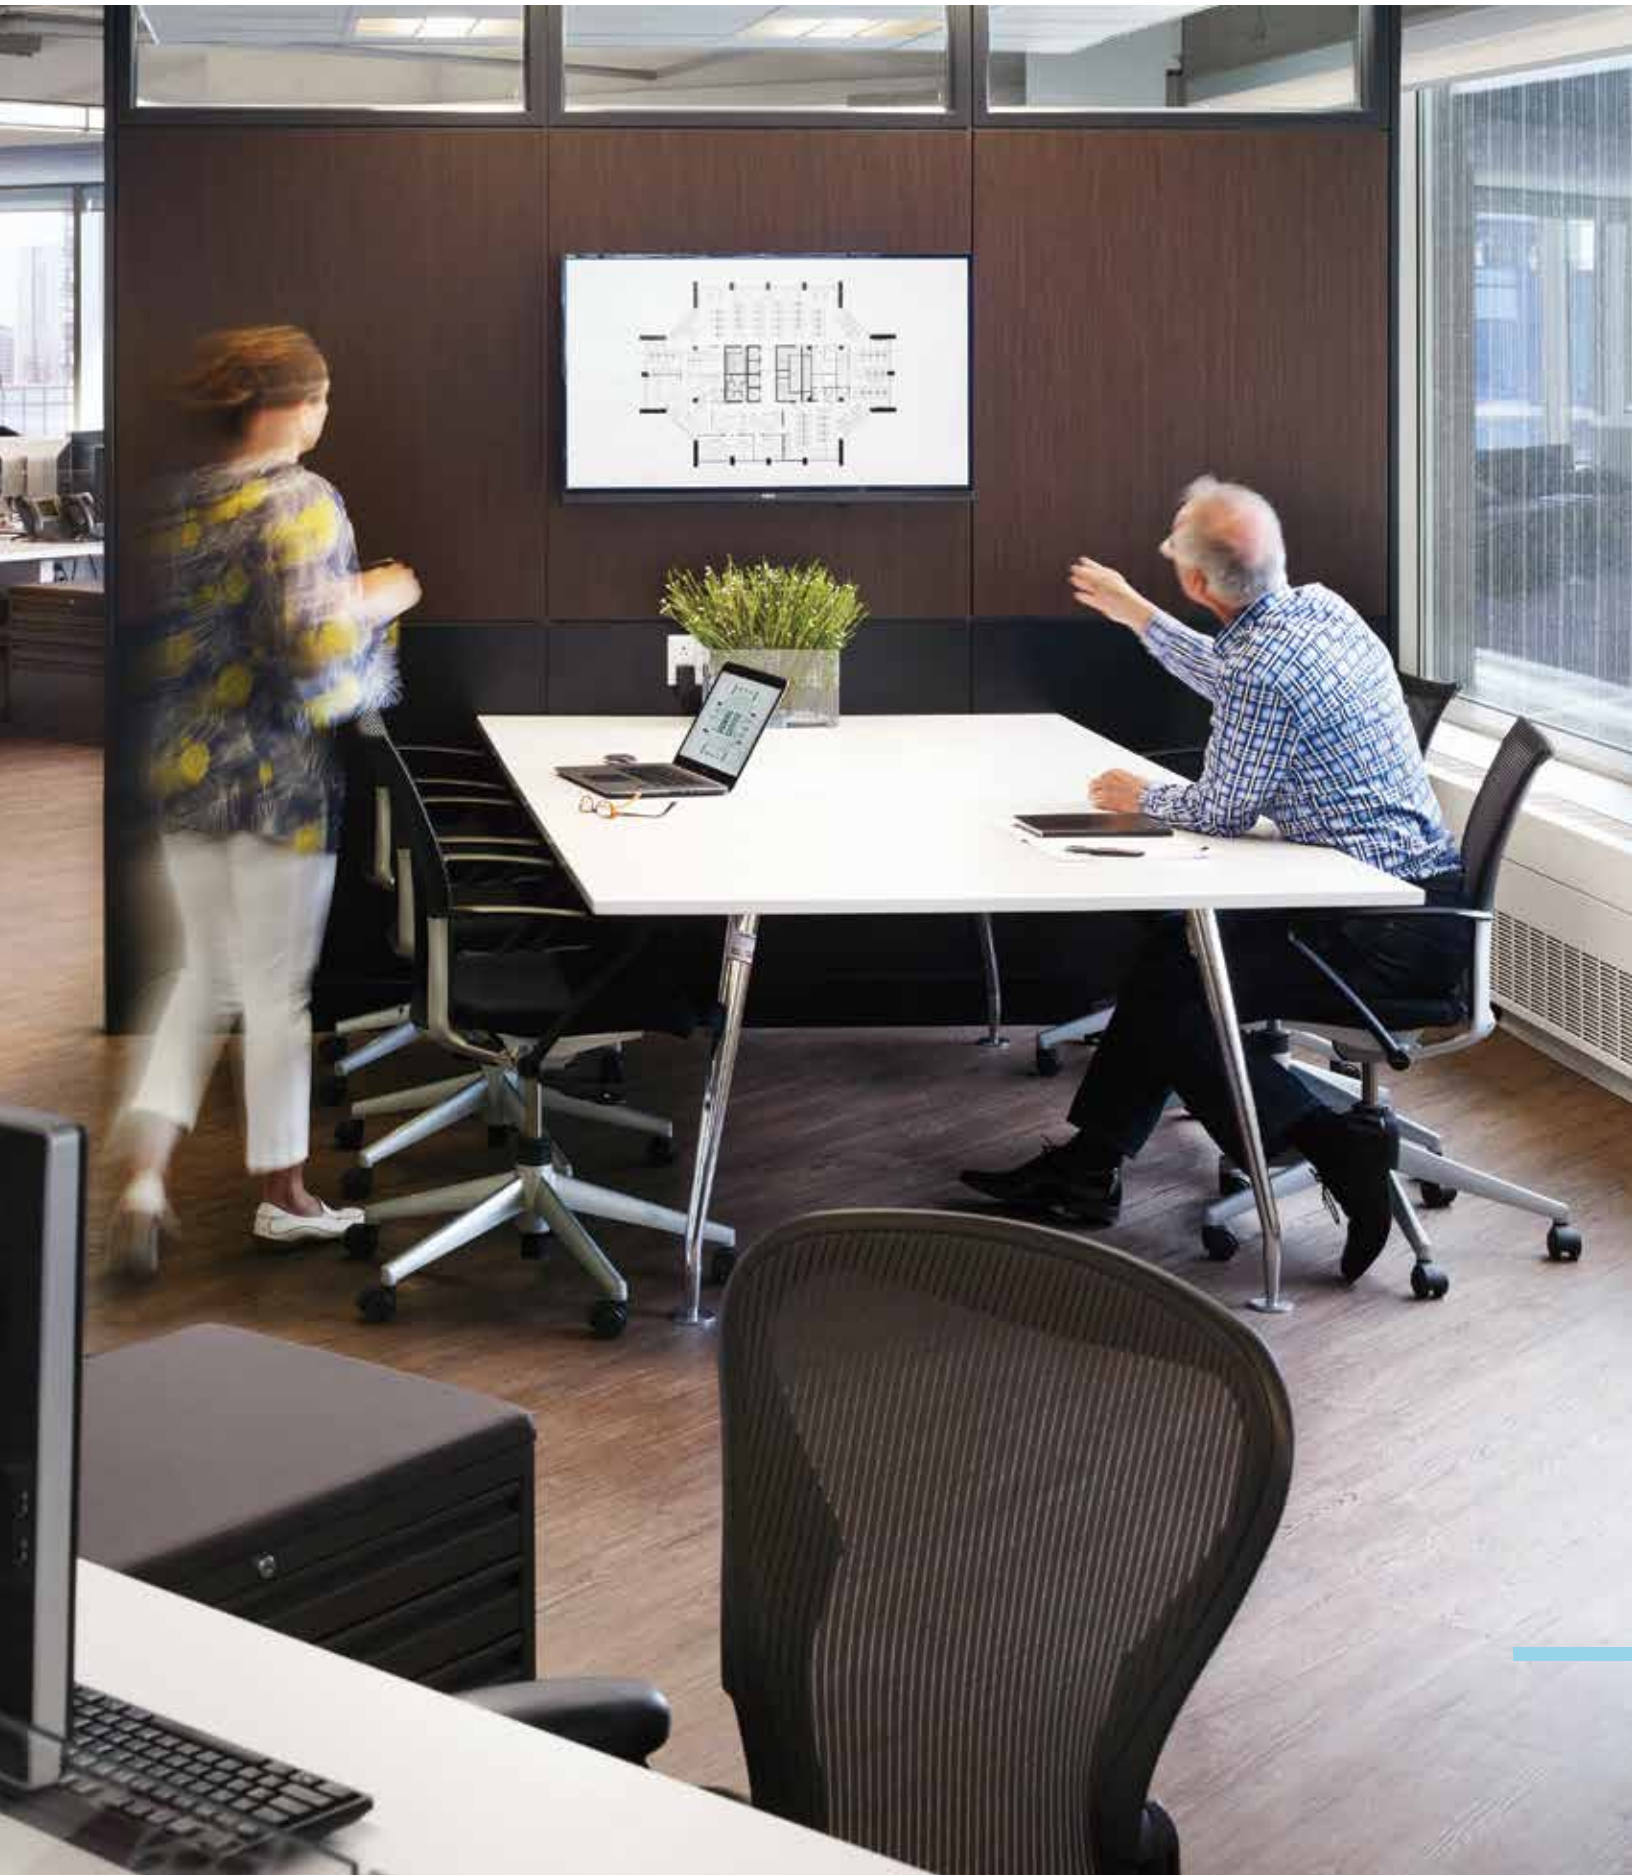

Privacy where you need it

Aria provides varying levels of acoustical and visual privacy while maximizing daylight.

Enhance privacy beautifully with Aria, which meets a tested STC rating of up to 43.

Customized for you

Aria's versatility lets you combine solid and glass panels for beautiful spaces with varying levels of privacy. Integrate storage or personalize glass panels to create a unique aesthetic and increase privacy.

empower technology

Incorporate technology using a technical module to discreetly route power. To integrate electrical, data and communication, ask us about our Aria T solution.

Guiding principles to product design

delight users

Thoughtful details keep people happy and productive.

empower technology

Convenient, flexible access to technology and power makes it easy to share information.

foster agility

Smart products let people easily customize and adapt their space as needs change.

design for sustainability

Responsible choices matter — from beginning to end, and over again.
